The Blanchard Valley Academy of Massage Therapy is an institution of higher education in the art of massage therapy. It is the mission of the academy to graduate quality oriented therapists, prepare students to pass the state medical board exam and our hearts desire for people to experience the many benefits of massage and the healing power of touch.

Training in the art of massage therapy requires a minimum of 750 classroom hours, which includes anatomy, physiology and massage theory and practicum; along with hands on clinics. The State Medical Board of Ohio and the State Board of Career Colleges and Schools approve our training program. For those interested we also offer a One plus One Associates Degree program in conjunction with the *University of Findlay*. Classes start in the spring (April) and fall (October) with day and evening classes available.

Massage the systematic rubbing and manipulation of the tissues of the body is one of the oldest of all means used for the relief of bodily infirmities.

Massage is to the human body as a tune-up is to a car.
